PLAYGROUP

PLAYGROUP

Age group: 1.6 years to 2.5 years

What is it to experience a child's world?

Seeing what they are seeing;

Hearing what they are hearing and

Feeling what they are feeling.

It is a beautiful world they live,

and they live in the, "Now."

Playgroup are inquisitive about everything around them and at this stage, their vocabulary starts to build up as they try naming the objects. On the social front, they are still much attached to the primary caregiver and are not comfortable with strangers.

In the play group, we provide for child-teacher connect to make them feel comfortable, hence we maintain a smaller teacher-student ratio. The 9i Approach ensures development of each child through the activities like play, rhymes and storytelling, kinesthetic activities, art and craft, drama and social skills.

NURSERY

Age group: 2.6 years to 3.5 years

At this stage children's vocabulary has developed enough to express their need and recite stories and rhymes. Though they are still attached to the primary care givers but are ready to interact with the new people, provided they are in the environment they are familiar with. It's in this stage that they are curious to explore their surroundings but are unaware of the risks attached to them.

Our Nursery programme provides the transition from the known to the new environment. 9i Approach enables a child to develop socializing, exploring, experimenting, logical thinking, physical development, and language skills through a theme-based curriculum and activities in a fun-filled manner.

LKG JUNIOR KINDERGARTEN

JUNIOR KINDERGARTEN

Age group: 3.6 years to 4.5 years

We all act on situations based on our previous experience, which is pre-programmed in our minds. Likewise, our children also save a few programs in their minds.

Our Junior Kindergarten is designed to help children build on their prior knowledge and experiences to form the concepts and acquire foundational skills. Our program is 'activity based' with themes comprising both individual and group activities.

9i Approach enables the development of cognitive skills, logical reasoning through sorting, grouping, temporal concepts, and number concepts with mathematical operations. Our learning centres provide both free and guided play, thus enhancing the child's imagination and creativity.
